

Snap™

Task
SEATING

If you need seating in a snap, OEI has just what you're looking for—Snap™ Task Seating. This cost-effective line offers value, comfort, reliability and an incredible delivery schedule.

Snap seating offers so much more than your average task chair. Because of its molded foam construction, lumbar pillows for back support, sculpted seat, and the perfect combination of soft seat and firm back, Snap chairs are the most comfortable chairs in their price range.

Beyond its construction, Snap seating delivers a multitude of adjustments to fit the needs of individual users. Snap allows users to adjust back height, back pivot, arm height, and on some models, seat depth and seat and back angle. It's more than you would expect from a value line of seating.

Snap has six chairs that range from task chairs, to guest chairs and stools. Chair mechanisms are made of heavy-gauge steel plates and are securely attached with six bolts. Five-star bases are fiberglass reinforced nylon and all hardware is treated with Nylock patches to prevent loosening over time. In other words, Snap seating is built to last.

Whether you need seating for a new computer lab, or you have an administrative team starting in a week, Snap Task Seating is everything you need in a task chair, and more.

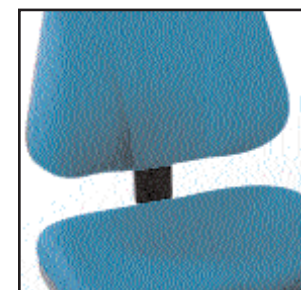

Stylish sled base. Back depth/back height feature.

Interchangeable Loop or T-Arm. Fully adjustable arm height and width offered on all models.

Stool option with 26" base.

Contoured back and seat cushions.
